INTRODUCTION

JK Tyre & Industries Ltd. is a leading tyre brand with state-of-the-art manufacturing facilities. The Company started manufacturing tyres in 1977 at its Kankroli Tyre Plant in Rajasthan. Since then, it has expanded its manufacturing base and today has 12 manufacturing units – 9 in India and 3 in Mexico.

To cater to the increasing demand of the mining and construction equipment industry, the Company set up a dedicated manufacturing facility at Mysore, Karnataka in 2010. This facility made the production of the indigenous JK Tyre Ultra Large Off The Road (OTR) Tyre range possible.

Equipped with automated processes, cutting-edge technology and modern machinery, the facility enables the manufacturing of OTR Tyres ranging from the smallest forklift tyre weighing 14 kgs, to India's largest rigid dump truck tyre weighing 3400 kgs and measuring 12 feet in height.

JK Tyre also manufactures OTR tyres for the following machines and applications:

- Backhoe Loader
- Self-Loading Mixer
- Soil Compactor
- Motor Grader
- Asphalt Paver
- Pneumatic Tyre Roller
- Concrete Pump
- Skid Steer Loader
- Tele Handler

- Pick & Carry Crane
- Truck Crane
- Wheel Loader
- Mining Tipper Truck
- Rigid Dump Truck
- Drill Jumbo
- Underground Mining LHD
- Forklift
- Reach Stacker

- Empty Container Handler
- Rubber Tyred Gantry Crane
- Straddle Carrier

JK Tyre is also the preferred supplier of leading mining equipment manufacturers including BEML, Action Construction, Escorts Construction Equipment, JCB, Liugong, Sany, Bull, Doosan Bobcat, L&T- Construction Equipment, Schwing Stetter, Tata Hitachi, Ajax, Amman, Indo Farm, Eimco Elecon, Terex and many more.

In addition to manufacturing high-quality OTR tyres that reduce operating costs, JK Tyre also engages with customers on the ground with its best-in-class tyre care services.
